## TOUR NAPLES

“See Naples and then die.”

So Goethe paid homage to Naples on the eve of his visit to the city. A stupendous and unconventional city, Naples represents a world of its own within the world of Italy. A land rich of history and monuments, it will know how to welcome you by the pleasantness of its climate and the warmth of its inhabitants. As well as it will know how to leave you awestruck by the culinary delights of its cuisine and fine wine. You will compete to taste the best pizza in town, become a connoisseur of babbas, get to know its alleys and lose your breath in front of its splendid views. You will understand what it means to live, in what the Italians call, “an open-air theater.”

This is Naples. An experience all to be lived, even better if you experience it with us. Join the complete city tour of Naples, seven days in which you will discover it from top to bottom with the help of our guides and the accompaniment of our private buses. Choose Camper accommodation if you have it, or Hotel Rooms if you do not it. Our transfer services will help you get to your accommodation from your station or airport of arrival, and accompany you back for your return.
